

Project Information

Project Name: Lawn F Lawn Renovation Project

Start Date: 16 March 2026

Soil Preparation: March

Seeding: Late March

Irrigation: Throughout the establishment phase

Completion: Early May 2026

Our Lawn F location, we will be undertaking a lawn renovation project to replace existing cool season grasses with warm season varieties. This will be completed for Rows 19 to 34.

Not only will this improve the look of the lawns in this area and reduce water and chemical usage, it will also give us the chance to level out sunken graves and uneven ground, improving safety for everyone visiting or working at this location.

The lawn renovation process will not disturb existing burials or impact beams at the location. As always, respect for the location and surrounding areas will be maintained at all times.

Please note that weather and scheduled burials within the location may shift the timing of each stage. If a burial is requested in the area, we will ensure that there is access and it can be undertaken.

The development will be completed in the most efficient manner possible to minimise disruption to the location. However, there may be some times during the works when access to the site may be limited due to safety (e.g. machinery operating onsite). Also, please be aware the overall aesthetic of the site will be impacted until the new grass grows in.

To keep the community informed throughout the process, we will have signage close to the location, as well as up-to-date information on our website and social media pages.

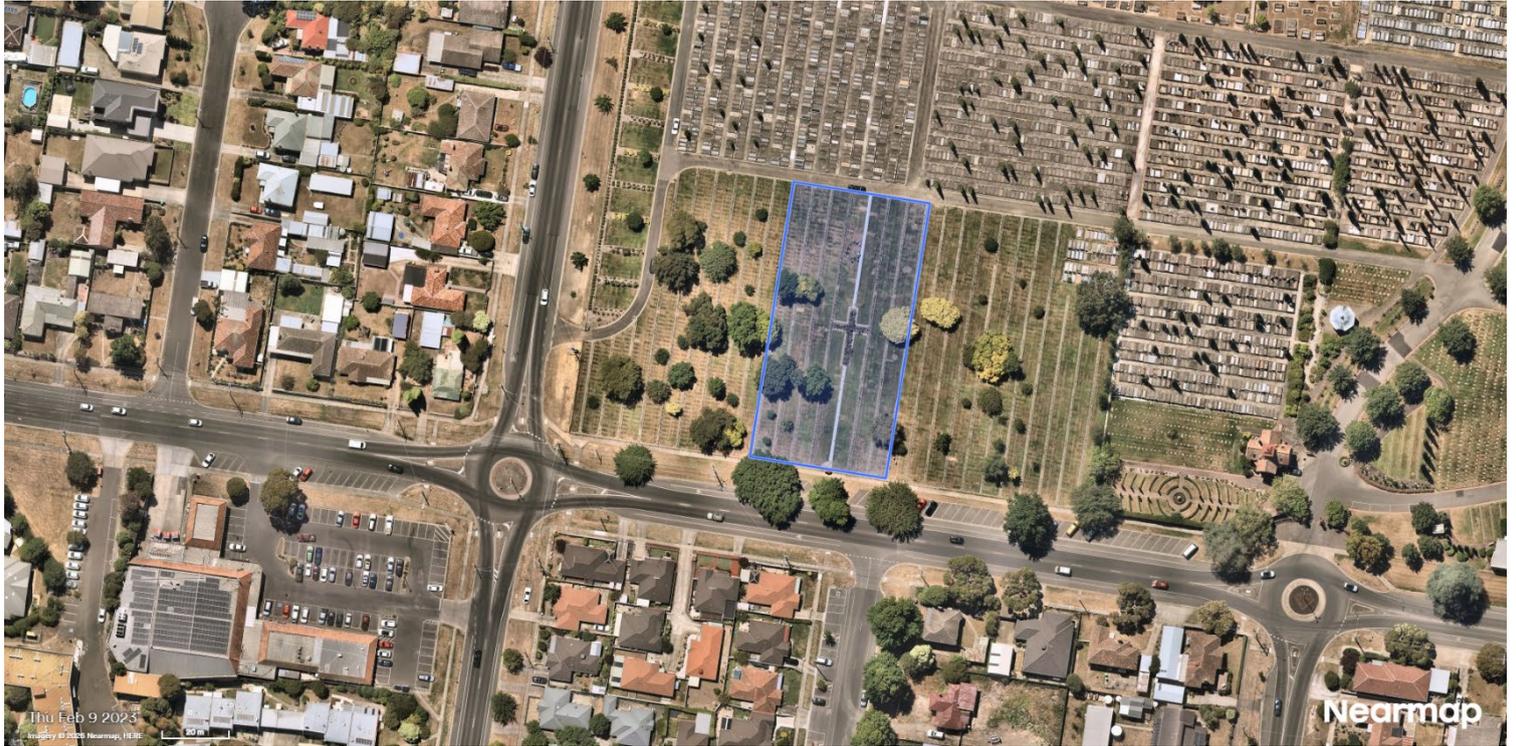

The improvements to the Lawn F location are crucial for enhancing the beauty, safety, and sustainability of our cemetery, ensuring it remains a welcoming and serene environment for all visitors.

If you have any questions regarding the Lawn F Lawn Renovation Project, please contact our Client Services Team Ph: (03) 53321469 (e): enquiries@ballaratceteries.com.au
